

What Does the Process Look Like?

Discovery

Discovery entails conducting thorough research and analysis to gain comprehensive insight into the employment seeker's life in every aspect, which is essential for developing a productive Customized Plan for Employment (CPE).

Profile

Profile is an ALL-INCLUSIVE descriptive document that is developed to represent the information gathered during Discovery about the employment seeker.

Customized Plan For Employment

The Customized Plan for Employment (CPE) is a roadmap for job seekers, created after the Discovery process. Developed during a Customized Employment Planning meeting, it reflects person-directed and person-centered values.

Visual Resume

A Visual Resume is like a picture book showcasing work skills. Instead of plain words, it uses images to highlight strengths. It's part of Customized Employment, where we match job tasks to skills and interests.

Customized Job Development

The Customized Employment Plan (CEP) is central to job development. Job developers use this "PLAN" to identify, engage, negotiate, and customize job situations for success with employers, meeting the employment seeker's needs.

Welcome to the CUSTOMISED EMPLOYMENT PROGRAM(CEP)

WHY CUSTOMIZED EMPLOYMENT ?

AIM

Customized employment aims equal opportunities for individuals with disabilities in community life. They also serve as role models and advocates for inclusive policies, contributing to a more supportive and vibrant community overall.

BENEFIT

Customized employment (CE) benefits individuals with disabilities and employers by negotiating tasks and improving workplace efficiency. It utilizes skills and experiences, benefiting both parties involved.

OUTCOME

Employees are provided with a source of income, security, and all good things life that come with having a job.
